Hazardous Weather

Weekend Severe

Marginal to Slight Risk

Weather Forecast Office
Midland/Odessa, TX
Issued May 25, 2019 9:45 PM CT

Isolated severe thunderstorms are possible again today and tomorrow along and east of a dryline which will be draped across the Permian Basin south toward the Big Bend region. Any storm that develops will be capable of producing large hail, damaging winds, and perhaps a tornado.

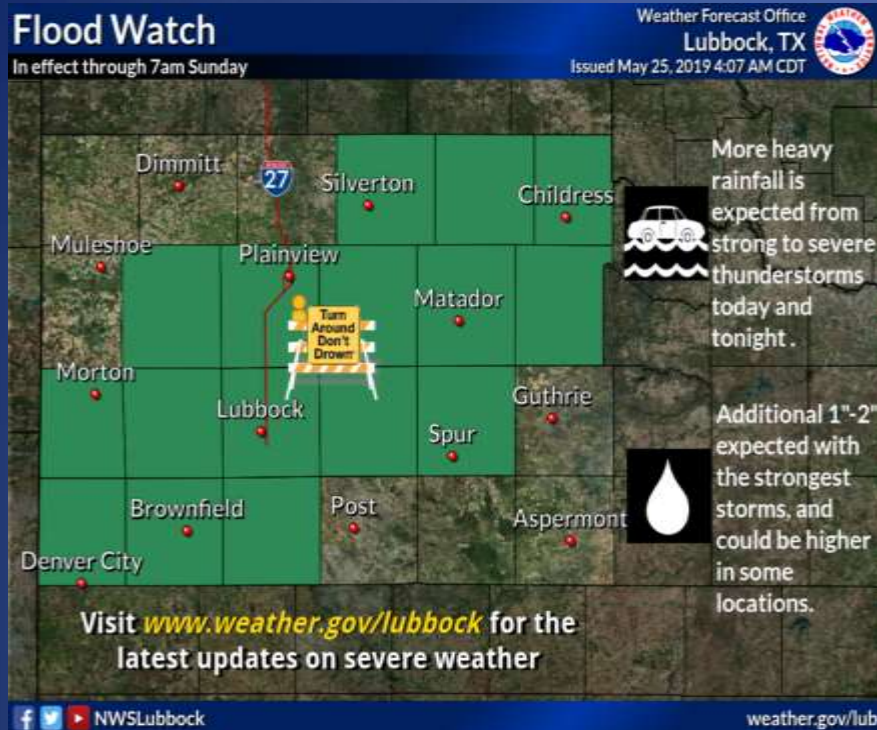

Isolated T-Storms Today

Weather Forecast Office
Midland/Odessa, TX
Issued May 25, 2019 3:50 AM CT

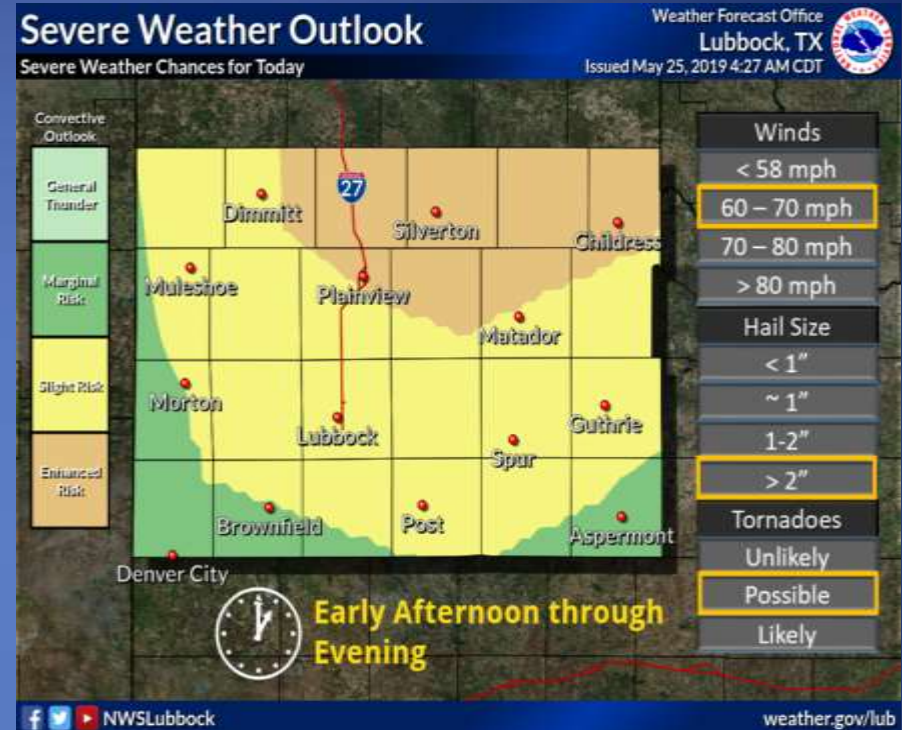

Isolated strong to severe thunderstorms will be possible again this afternoon and evening along and east of a dryline. Best chances for severe weather will be across the northern Permian Basin and lower Trans Pecos. Please remain weather aware today, especially if you have outdoor plans!

Hazardous Weather

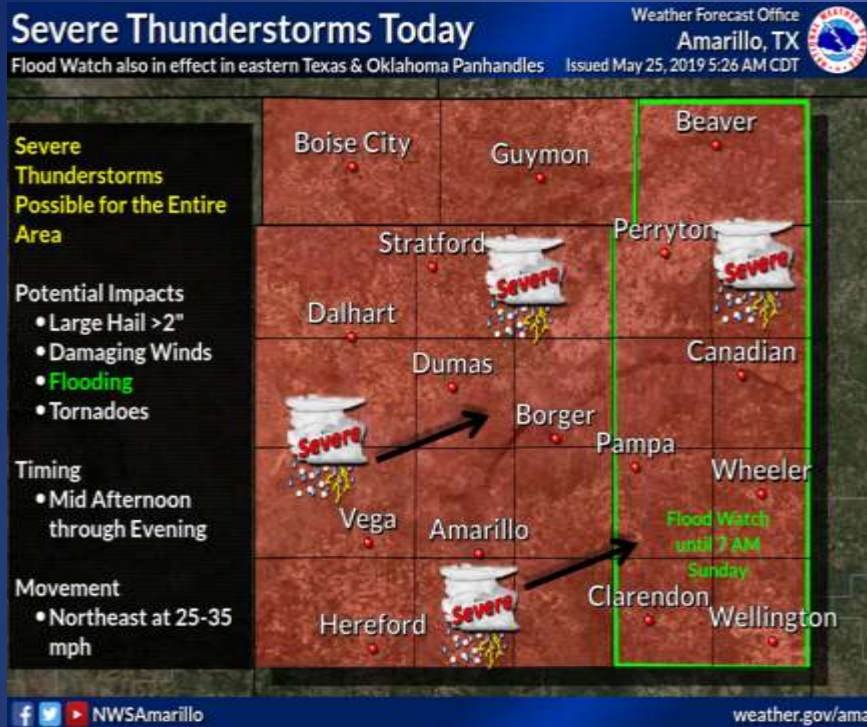

A Flood Watch is in effect for most of the South Plains regions through 7 am Sunday. Repeated rounds of thunderstorms will continue to produce heavy rain for parts of the watch, focused over the central South Plains and northern Rolling Plains. This rain will fall on locations that have already received several inches of rain, which will only exacerbate any ongoing flooding. Additional rain totals of 1-3"+ will be possible through the late evening and overnight hours.

There is an enhanced risk of severe thunderstorms for portions of South Plains and the extreme southern Panhandle for Saturday afternoon and evening. Hail larger than 2 inches in diameter, wind gusts to 70 mph, and tornadoes will be possible. There will also be a Flash Flooding risk with the strongest of these storms.

Hazardous Weather

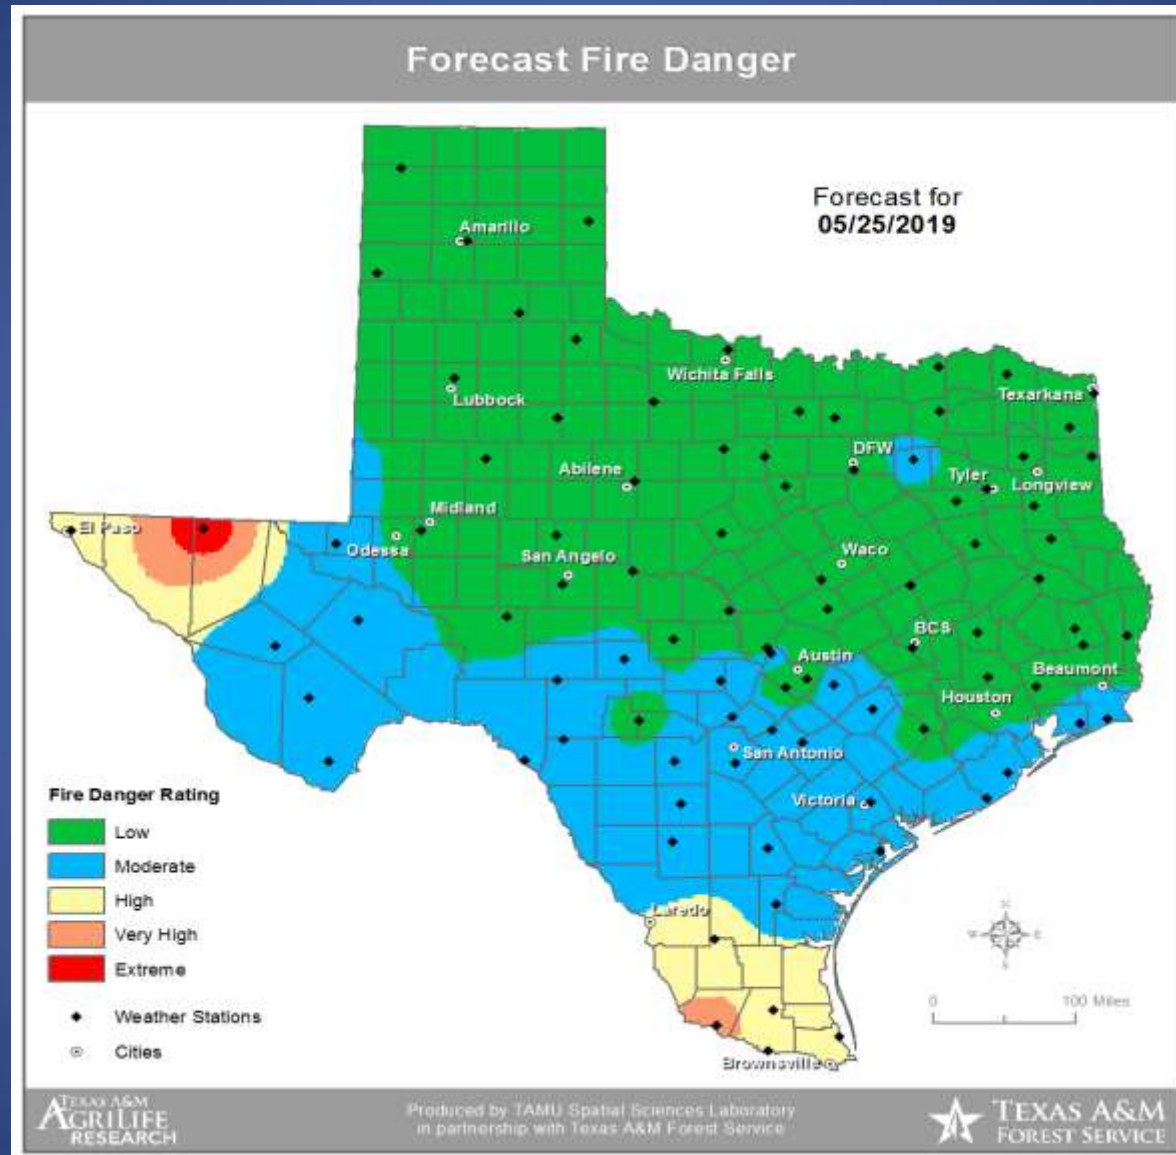

Severe Thunderstorms are expected areawide this afternoon and evening, with large hail (>2"), damaging winds (up to 70 mph), flooding (mainly in the east) and tornadoes all possible. Please stay Weather Aware and have your severe weather safety plan in place should warnings be issued. A Flood Watch is also in effect for the eastern combined Panhandles until 7 AM CDT Sunday.

Weather Warning/Advisories Issued
